BRUCKHOFF LA BELLE SPECTACLE SYSTEM

The combination of hearing module and glasses is a unique solution in the field of modern bone conduction hearing systems.

BONE CONDUCTION HEARING SYSTEMS

When the inner ear is intact and the outer and/or middle ear do not allow sound transmission, bone conduction hearing aids help in transmitting sound. These transmit the sound by means of mechanical vibrations to the skull bone, and from there into the inner ear.

The patented Hearing Module is technically and optically integrated into your glasses so that the added value of your glasses is virtually invisible. Due to the familiar position of the glasses on the head, your new Hearing System is automatically ideally positioned on the head.

YOUR HEARING AID SPECIALIST:

PRODUCTION AND DISTRIBUTION: AUDIA AKUSTIK GMBH
Franz-Mehring-Str. 13 | 99610 Sömmerda | www.audia-akustik.de

CHARM AND CHIC!

Uniqueness with character:
Simply sophisticated when your glasses meet our hearing system.

Seeing and hearing in one: La belle spectacle hearing systems combine a hearing module and glasses elegantly. This makes la belle nearly invisible. Ideal for people who value an unobtrusive solution and an unforgettable hearing experience, both professionally and privately..

LA BELLE: SEEING AND HEARING IN ONE

Simply ingenious: your glasses become the hearing system: The patented hearing module is technically and optically connected to your glasses in such a sophisticated way that the additional benefit of your glasses is almost invisible. Due to the familiar position of the glasses on the head, your new hearing system is:

- automatically ideally positioned on the head,
- almost not noticeable to you,
- hardly visible to others.

A hearing system of high wearing comfort: pleasant, comfortable and discreet. The la belle hearing system is made in Germany.

ONE HEARING AID – FOR ALL SPECTACLES

Practical and flexible: Whether working, reading or sunglasses: you only need one hearing module for your glasses. Click on – done! Wear your glasses as usual even without the hearing module – with the discreet temple arm end piece.

TECHNOLOGY AT ITS FINEST

Almost invisible - but strong in performance

- easy to use
- lifelike quality sound
- automatic adjustment of listening comprehension
- good listening even in noisy environments
- masks interference noise
