Water-resistant children's hearing system

For small rain dancers and puddle jumpers.

Junior BC WR bone conduction hearing system

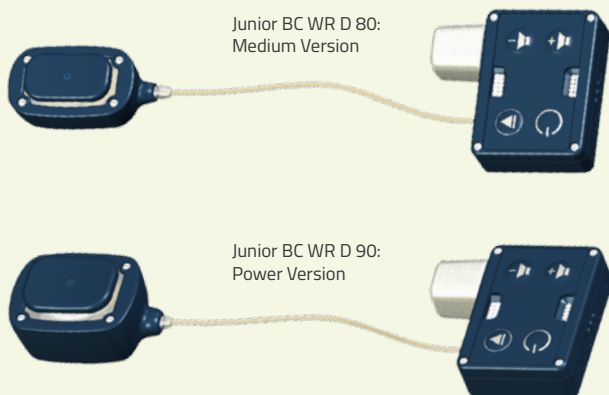

With **junior BC WR** you get a hearing system that allows children to access the world of hearing in a simple way.

junior BC WR children's hearing systems are small, light and comfortably fixed and worn in a headband.

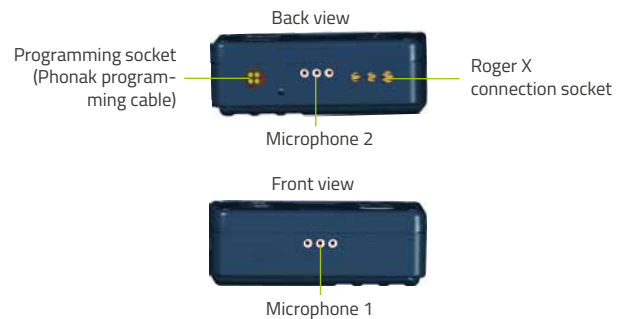

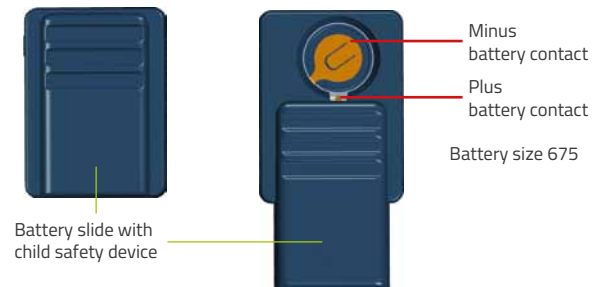

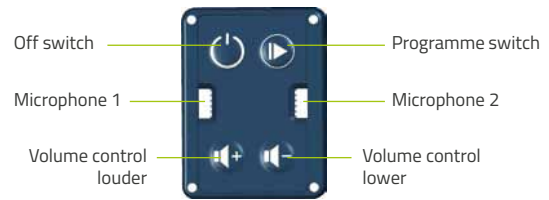

Features

- Water Resistance
- Amplification between 48 dB and 51 dB
- BC WR earpiece can be changed via plug contact
- BC WR device and earpiece barely visible on the outside of the headband
- BC WR earpiece is secured on the inside of the headband using a Velcro fastener, which allows the position to be altered
- State-of-the-art print film technology on controls
- Various headband designs available
- Customers can use their own headbands
- Compatible with Roger X
